Personal Safety should be your #1 Concern

Five out of every six adults will be the victim of an attempted or completed violent assault in their lifetime.

If you're the gambling type, do nothing and put this brochure down. If you don't want to become a statistic, take the first step by scheduling a customized safety seminar, which helps you answer the question "what if". All of our training is personalized to meet your individual concerns, ensuring that you are better equipped to control situations, rather than situations controlling you.

We have instructed at Wayne State University, Macomb College and Schoolcraft College. We are always on the cutting edge and have multiple black belts in a variety of martial arts!

Defend yourself from any position!

Continuing Education
